The Wing Team:

At Hospital Wing we have five bases that operate 24 Hours a day, 365 Days a year. On each Hospital Wing flight we provide you experienced Flight Nurses and Flight Paramedics certified in advanced burn, cardiac, medical, neurological, pediatric emergencies and trauma care. We provide this care in the air with specialized medical equipment and supplies available on each helicopter. Hospital Wing requires all Flight Nurses, Flight Paramedics and Pilots to possess well more than required by the state before being hired at Hospital Wing. At Hospital Wing we utilize a fleet of seven American Eurocopter Helicopters to transport our patients. The AStar is one of the fastest most powerful helicopters available in the region. All aircraft are purchased new and equipped with Air Conditioning, for patient comfort, Auto Pilot, and Night Vision Goggles.

Pedi-Flite

Pedi-Flite, the Mid-South's only Pediatric Specialty Team, brings many of the capabilities of the advanced patient care directly to their patients by air or ground to provide the highest quality of care both before and during transportation to Le Bonheur. The Pedi-Flite team is made up of pediatric and neonatal critical care nurses, pediatric and neonatal respiratory therapists and paramedics. All Pedi-Flite team members are trained in advanced life support techniques, and hold additional credentials beyond those of their critical care peers. Pedi-Flite has provided specialized transport for critically ill and injured children for more than 30 years. Pedi-Flite transports more than 2,000 patients annually and uses the pilots and helicopters of Hospital Wing to transport patients by air. As a member of the Hospital Wing Family, Pedi-Flite air transports are covered under the Hospital Wing Membership. (Ground Transport by Pedi-Flite is not covered by Hospital Wing Membership)

Hospital Wing Outreach Education

As part of our commitment to serve our communities, Hospital Wing offers many educational courses to provide you with the lifesaving skills you may need during the time of an emergency. The outreach education team at Hospital Wing can bring our clinical expertise to conduct CPR and First Aid courses within our service area. These courses are offered for little to no cost for interested individuals. For our hospital and emergency services partners, Hospital Wing can also bring many advanced level courses that are accredited for CEU's and offer a unique learning experience. We also conduct Helicopter Landing Zone safety courses for Police, Fire, and EMS agencies at no cost.

Your Connection To Life-Saving Critical Care In The Air.

Hospital Wing, your connection to Life-Saving Critical Care in the air, is now offering to our communities a membership program to help individuals and families. When an emergency event or critical illness happens to you or your family member, requiring air ambulance transport, costly expenses should not be an added concern. Hospital Wing is committed to providing to you, service you can trust with peace-of-mind when the unthinkable occurs. Hospital Wing has been committed to you and your loved ones for over 26 years in providing the highest level of care to the injured and ill for the Mid-South and surrounding areas. We provide this through our five bases located in Memphis, Brownsville and Selmer, TN, Oxford, MS, and Jonesboro, AR.

How our Membership Program furthers our commitment to our communities and service area, is by providing life-saving transport without the financial worry.

Members of Hospital Wing will not have any personal financial responsibility to Hospital Wing, if the unthinkable were to occur. For this peace-of-mind, the membership fees are \$40.00 or less annually for households.

About Hospital Wing:

Hospital Wing is a designated 501C-3 not-for-profit, air medical transport service with direct alliances with all the major medical specialist hospitals in our service area. These alliances include:

- The Elvis Presley Trauma Center (The MED): Only Level One Trauma Center in our area.
- Methodist-LeBonheur Healthcare: Critical Care for Adults and Pediatrics
- Baptist Healthcare Systems: Critical Care for Adults

Other associate facilities include St. Francis Hospitals in Memphis and Crittenden Regional Medical Center in West

Terms and Conditions:

Hospital Wing Membership covers the household, which consists of all persons of the household, regardless of the relationship. It is only required that all members reside in the same structure.

Hospital Wing Membership registration is NOT insurance. After all insurance payments are made to Hospital Wing, the patient will not owe any additional payments. For Hospital Wing Members, Hospital Wing will accept payment from insurance as payment in full for a Hospital Wing flight. By my signature below I agree to transfer directly to Hospital Wing my rights to air medical insurance payments due me. Such payments shall not exceed regular Hospital Wing charges.

No refund on Membership purchases. Membership does not cover ground ambulance services. As a guideline, Hospital Wing transports patients up to 300 lbs, or a girth ratio of 27 inches, however Hospital Wing evaluates each flight on a case by case basis. Hospital Wing can not guarantee transports on patients exceeding this guideline. Other appropriate operational flight considerations must be met for transport (i.e. weather, mileage to include coverage area and medical necessity).
